NewTek Revolutionizes AV Over IP Solutions with NDI® at InfoComm 2019

SAN ANTONIO, TX—June 3, 2019—At Booth #1925 InfoComm 2019 in Orlando, FL from June 12-14, NewTek will demonstrate its revolutionary approach for system integrators, designers, and installers looking to modernize their capabilities using AV over IP. The NewTek booth will be a living example of its groundbreaking AV solution where every asset is available and controllable from anywhere on the network using NDI®, NewTek's royalty-free and resolution independent AV over IP standard.

The booth will feature a single vertical cabinet containing 16 NewTek hardware devices and an array of cutting-edge advanced software tools designed to create, stream, publish, convert, and monitor AV content and more. Connected only to electricity and a 1Gb Ethernet local area network, these assets are controllable from any of the networked demonstration pods at the booth allowing users to access and utilize any capability or feature from any device. The end result is the ultimate in networked systems for AV over IP that saves time, money, space and other precious resources while creating new possibilities for customers that previously did not exist.

“NDI allows anyone integrating AV over IP solutions to be far more dynamic than ever before with our own InfoComm booth demo being a great example. Every device and application we’re showing can be controlled at any touch point,” said Dr. Andrew Cross, president and CTO of NewTek. “Compare it to other IP-based AV solutions that send a single signal from point-to-point at a high cost and you realize you are looking at the future and it is here now.”

For a personalized demonstration, system integrators, designers, and installers are encouraged to make a booth appointment. Please [click here](#) for more information.

The NDI Product Showcase

NewTek Booth #1925 will also showcase an array of third party NDI products to include:

- Sony IP&S Inc. BRC-X400 IP 4K Pan-Tilt-Zoom Camera with NDI®|HX capability
- BirdDog P200 NDI PTZ Camera

- DELTACAST DELTA-neo N2H Converter
- Exterity AvediaStream Transcoder
- Kiloview N1 NDI Hx Encoder
- Lumens VC-A505PN PTZ Camera
- Magewell Pro Convert HDMI TX
- Switchblade Systems Splyce X4 NDI Encoder
- Vaddio RoboSHOT 30E NDI Elite Series Professional PTZ Camera
- and more

About NewTek

As the leader in IP video technology, NewTek is transforming the way people create network-style television content and share it with the world. From sporting events, Web-based talk shows, live entertainment, classrooms, and corporate communications, to virtually any place people want to capture and publish live video, we give our customers the power to grow their audiences, brands and businesses faster than ever before.

Clients include: New York Giants, NBA Development League, Fox News, BBC, NHL, Nickelodeon, CBS Radio, ESPN Radio, Fox Sports, MTV, TWiT.TV, USA TODAY, Department of Homeland Security (DHS), the National Aeronautics and Space Administration (NASA), and more than 80% of the U.S. Fortune 100.

About NDI

NDI is in the hands of millions of customers worldwide and allows multiple video systems to identify and communicate with one another over IP. NDI can encode, transmit and receive many streams of high quality, low latency, frame-accurate video and audio in real time. This benefits any network-connected video device, including cameras, converters, video mixers, graphics systems, capture cards, and many other production devices. #NDIcentral

NewTek is a privately-owned company by Vizrt and based in San Antonio, Texas. For more information on NewTek please visit: www.newtek.com, [Twitter](#), [YouTube](#), [Flickr](#) or connect with us on [Facebook](#).
