TriCaster® Mini X Registration

1. Serial Number Label

Find the 15-character serial number label on the TC Mini unit

2. Internet Connection

Use one of the Gigabit Ethernet Network Connectors on the unit to make an active Internet connection.

3. Display, Keyboard & Mouse

Be sure a display, keyboard and mouse are connected to the unit.

4. Power

Press the Power Switch on the unit.

5. End User License Agreement

Once the unit finishes powering up the End User License Agreement screen appears. Click on I Accept the license conditions to continue

6. User Information

The User Info screen now appears. Fill out the information and when complete, click OK

7. TriCaster® Registration

The Register TriCaster® screen now appears. Type in the 15 character serial number and then click Continue

8. Software Update

After confirmation with the NewTek registration service, the system user interface appears. Before using the system, please go to <https://www.newtek.com/downloads/> to download and install the latest version of software.

9. Video Tutorials

Clicking on the New Session box is the first step to create a program, but there is a downloadable video tutorial that will assist in the most common operations and show how an initial program can be created. <https://www.newtek.com/tricaster/mini/videos/>
