

NewTek recently joined the Vizrt Family!

Working at NewTek isn't like every other company on the block. For us, work isn't just going through the motions, or moving something off your plate just so you can get to the next task. Our customers are some of the most creative and passionate people in the world—and by helping them to unleash their creativity, we're having a tremendous impact on both their professional careers and personal lives. To us, “work” is more about making our mark in the industries we serve—and changing the lives of the people who use our technology.

If you're looking to join an exciting, rapidly expanding, global company that is transforming the way people create and share network-style television and 3D visual effects content, we want to hear from you. It's always a plus if you've worked in the television or media and entertainment industry, but it really comes down to the experience you bring to the table, as well as what makes you who you are.

We look for smart, driven, creative, flexible, results-oriented, accountable and honest people. Then, we hire the rock stars. The best of the best.

### **Position Summary:**

As a software engineer on the video engineering team you will work on the next generation of NewTek video products. NewTek has a development environment in which engineers are encouraged to take ownership on their areas. This position is available in the NewTek world-wide headquarters located in San Antonio, Texas, USA.

### **What You'll Bring:**

- 3+ year's professional experience in software development or equivalent.
- Experience in the product lifecycle from product specification to shipping.
- Strong problem solving and communication skills, with an emphasis on working both with customer, marketing and sales teams to evaluate requirements for product development.
- Expert knowledge of C++ or C programming. If experience is with C, additional object-oriented experience is required.
- Microsoft Windows development.
- Visual C++ development environment.
- Desirable Experience
- Experience in one or more of the following areas:
  - Video compression and an understanding of standard file types.
  - Graphics and algorithms.
  - Linear algebra.
  - Knowledge of video editing and live production.
  - Implementation of hardware/software product design.
  - Algorithm optimization, including use of compiler intrinsic.

### **What We Offer:**

- We offer an exciting opportunity in an expanding international company with the potential for personal growth
- A caring environment with regular feedback and personal development
- Excellent time off programs
- A friendly and welcoming work environment with highly skilled colleagues
- We utilize innovative software development technologies and methodologies
- We create software and services that push creative boundaries and develop new ways of telling stories

### **About NewTek**

NewTek, the Emmy Award winning provider of innovative solutions for Graphics, Film and Television Production, recognizes that employees are at the core of its success. We recruit and retain highly qualified, motivated, and passionate individuals and provide them with an environment to grow, succeed, and share in the company's success. We believe in the power of stories to make a difference. To make a difference for societies, communities, and individuals. Stories educate and engage in multiple perspectives, bringing clarity, balance, and understanding. Stories push for change and fight for the things we love. Our customers tell stories that reach 3 billion people a day with perspectives that change the world and entertainment that brightens the day for many. Vizrt/NewTek empowers stories that engage and impact societies through the creation of sophisticated tools for the storyteller to flourish in the art of storytelling. We will continue to take bold steps, act fast together and are committed to making an impact. If you are interested in challenging the status quo, join our movement.
